DIVISION ALIGNMENT

It is *anticipated* that multiple divisions for boys and 1-2 divisions for girls, structured to allow for as equitable competition as possible. A is considered to be a higher competitive level than B and B higher than C. However please note the final amount of divisions will be dictated by various factors including total # of teams entered.

Basketball BC reserves the right to place teams in a particular division (see guidelines)

SEEDING GUIDELINES

Basketball BC will be the final determinant of number of divisions per gender, what division a team is in and their seeding.

Basketball BC will use the following criteria (in no particular priority) along with any other pertinent information to determine divisions and seeding:

- Quantity of player pool team drawn from
- Tournament and game results
- Team history (previous provincial tournament results)
- Team average age/grade
- Time team has been together
- Team preference

Efforts will be made (no guarantee) to allow out of Lower Mainland teams to play only the last two days of the tournament if tournament is over 3 days (may mean 3 games in one day). Please indicate if that is your preference.
