RULES OF PLAY

For the Jr. NBA Global Championship Canada Regional Finals and Regionals

The Jr. NBA Global Championship Canada Regionals and the Jr. NBA Global Championship Canada Regional Finals will be played according to FIBA Rules, with the following modifications, in accordance to Long Term Athlete Development principles, considering the age and skill level of the participants.

1. The ball will be size 6 for both boys and girls.
2. Quarters will be 8 minutes in length. The first 3 quarters will be separated into two shifts of 4 minutes. The 4th quarter of 8 minutes will be open substitution.
3. A backcourt violation will be 8 seconds in length.
4. The 14 second shot clock reset will apply.
5. The FIBA 3-point line will be used.
6. The charge circle will be used.
7. Teams must play half-court defence if they lead by 15 points or more.
8. Equal Participation rules will apply. Therefore, each player on the roster, provided they are not fouled out, ejected, or injured, must participate under the Equal Participation Rule. In the 4th quarter, coaches can substitute players as they determine best for their team.
9. Substitutions will be at the 4-minute mark of the first three quarters, unless a player is on foul trouble (i.e. 3 fouls in the first half). If this occurs, the shift will count for the player that played the majority of the shift. If the substitution occurs exactly at the 2-minute mark then the shift will be counted for the player who started the shift.
10. The overtime period will be 4 minutes in length, Time-outs do not carry over to the overtime period, but each team will be granted 1 time-out per overtime period. Each overtime period begins in the direction of the possession arrow.
11. Teams must play person-to-person defence. LTAD-based no zone rules will be in effect. Please see casebook for detailed application.

Half-Court Defence Rule

When a team leads by 15 points or more, its players must immediately 'drop back' into their backcourt behind the half-court line once the losing team secures player control of the ball (dribbling or holding the ball) in its backcourt. The losing team shall be allowed to dribble the ball unimpeded across half court and establish frontcourt status. Violation of the rule stated above will result in the ball being awarded out-of-bounds to the losing team, at the frontcourt sideline, at the extended free throw line. Repeated violations of this rule may result in a delay of game penalty and technical foul.

Equal Participation Rule

Every participant who is registered on the team roster must participate in competition, provided they are not injured, fouled out or ejected. Coaches are required to provide playing time for all players who have been registered on the roster. It is considered unethical and having a lack of respect for the intent and spirit of the game for a coach to instruct or have an athlete fake an injury or intentionally foul out/become ejected, or not allow them to dress for competition for no reason. At no time shall a player be intentionally excused from a Jr. NBA World Championship Canada Regional or Regional Finals game by a coach.

The Equal Participation Rule states that:

- a. No player is permitted to have played any more than one shift more than any other player at the conclusion of the third quarter.
- b. Each player must play no less than the minimum number of shifts and no more than the maximum number of shifts.
- c. Each player must play a minimum of one shift in the first half.
- d. The sequence of shifting is not relevant as long as the above are fulfilled.
- e. In the case of fouling out, injuries or ejections, the Equal Participation Rule still applies. The above must still be fulfilled, with an exception being made for the ineligible player.
- f. In the event of a participant fouling out or being injured, the athlete who plays the majority of the shift will be assigned as having played that shift. If the substitution occurs exactly at the 2-minute mark, the player who started the shift will be assigned as having played that shift.
- g. If the Equal Participation Rules are not being followed, coaches will be issued a warning and the player participation will be corrected. The second violation will result in a technical foul.

Maximum and Minimum Number of Shifts for the First 3 Quarters

Number of Players	Minimum Shifts per Player	Maximum Shifts per Player
12	2	3
11	2	3
10	3	3
9	3	4
8	3	4

The scorer is required to track all of the players' shifts, including substitutions due to injuries, medical reasons, fouling out and ejections.

If a violation of the Equal Participation Rule has been alleged, teams are permitted to finish playing the game and any decisions regarding further penalties will be handled by the Canada Basketball and/or NBA representatives upon completion of the game. Should a violation of the Equal Participation Rule occur, it is the responsibility of the coach to raise this issue with a Canada Basketball or NBA representative on-site. If a team is found in violation of the Equal Participation Rule, the game will be considered a forfeit with the score being recorded as 2-0.

No Zone Rule Modification

Following LTAD youth modifications, no zone rules will be in effect for the Jr. NBA Regional Finals and the Jr. NBA Canada Regional Finals. There will be a Rule Monitor in place to monitor the no zone application in competition. The no zone rule and casebook will be supplied to the teams that qualify.

The final judgment on any rule is at the discretion of the NBA and/or Canada Basketball representatives on-site.

General Information

How does this competition pathway comply with and support the Canadian Long Term Athlete Development (LTAD) plan?

The Jr. NBA Global Championship Canada Regionals and Regional Finals support the Canadian LTAD due to the structure of competition, as well as the rules of play.

Half-Court Defence: keeps the games meaningful in competition.

Equal Participation: With U14 being the age where the highest dropout occurs and the largest changes in development, this Championship is operating so that all participating athletes will

play in each competition match.

Play Down Format: At this stage of development, athletes should be involved in multisport (MS) training. As the Play Down format was built, it kept in mind minimal travel distances (Regionals) and minimal teams travelling to the Regional Finals. This allows more Train to Train athletes to be involved in multisport training.

Information: Coaches will receive additional information regarding training train to train athletes to optimize the athlete experience. Coaches are also required to have NCCP Learn to Train training to create a playing environment for the athletes where all coaches will be educated in the adaptations, age and stage athlete.

No zone defence: Encourages movement; allows for creativity with the ball, passing, cutting and penetration; more time can be spent in practice on the mastery of basic fundamental principles of play in both offence and defence.

The format for the Jr. NBA Global Championship Canada Regional Finals is round robin, with a gold medal game following round robin play.
