# WOMEN IN BASKETBALL MONTH

Tipping off by celebrating International Women's Day on March 8th, this 4-week event will feature a variety of engagements for females in the sport of basketball to celebrate and enhance their participation in the game. Through workshops, fireside chats, and professional development sessions, women will have ample opportunity to grow their game and build their skills and passion with Canada Basketball.

This event aims to provide affordable opportunities for women in basketball to participate and learn from others from across the country. Proceeds from this month will be invested into women's programming through the Canada Basketball Foundation.

- ✓ Events range in theme from storytelling and best practices to professional development.
- ✓ Panel discussions that include athletes, coaches, officials and builders
- ✓ Targeted presentations to build toolkits
