

BASKETBALL BC CLUB MEMBERSHIP

Basketball BC Club Membership assists developing basketball programs and services in meeting the needs of the evolving provincial basketball landscape. Basketball BC Members have a stronger connection to share quality resources and the integration of player, coach, and official's pathways to support continued growth of the game.

Through a system of education, prevention, and response, Member clubs are provided with a framework to help create an atmosphere where safe and inclusive basketball is at the heart of all programming.

A portion of member fees ensure that everyone has access to the Basketball BC's insurance program, including general liability insurance, claim procedures, travel insurance, and more. In addition to NCCP coaching courses, Basketball BC will host ongoing professional development sessions to continue the growth of basketball coaches in British Columbia.
